

FEES: Fiberoptic Endoscopic Evaluation of Swallowing

Contents

Introduction

Learning Outcomes.....	i
Faculty.....	ii

FEES: Fiberoptic Endoscopic Evaluation of Swallowing

Topic 1. Overview of FEES

A short history of FEES.....	1
Establishing the procedure.....	1
Establishing roles.....	1
FEES performed in other countries.....	1
Should a speech pathologist do a FEES alone or with ENT?	2
Safety record.....	2

Topic 2. Anatomy and the Normal Swallow

Anatomy: An endoscopic perspective.....	3
Sidebar: Anatomy	
The normal swallow.....	3
Structural movements.....	3
Prior to the swallow.....	3
At onset of swallow.....	4
During white-out.....	4
After the swallow/airspace reopens.....	5
Graph: White out.....	6

Topic 3. Indications for a FEES Examination vs. Fluoroscopy Exam

FEES vs. fluoroscopy.....	7
Indications for fluoroscopy.....	7
Indications for FEES: Logistic reasons.....	7
Indications for FEES: Clinical reasons.....	8

Topic 4. The FEES Protocol, FEES Ice Chip Protocol

Equipment and supplies.....	9
Outpatient examination in the clinic.....	10
Inpatient examination on the ward.....	10
Definition of FEES protocol.....	11

FEES: Fiberoptic Endoscopic Evaluation of Swallowing

Clinical examination of the hypopharynx.....	11
Velopharyngeal port.....	11
Base of tongue.....	11
Pharynx.....	12
Laryngeal function.....	12
Handling of secretions.....	13
Swallow frequency.....	13
FEES looks at impairment and functional status.....	13
FEES ice chip protocol.....	14

Topic 5. Scoring the FEES Examination: Identification of Abnormal Findings

Anatomic-physiologic assessment.....	15
Secretions.....	16
Laryngeal movement for respiration, phonation, airway protection.....	17
Swallowing food and liquid.....	17
Aspiration: A critical factor.....	17
Aspiration during white-out.....	18
Difficulties in oral preparatory stage.....	19
Problem with initiation of the swallow.....	19
Measures of “pharyngeal delay”	20
The laryngeal rim.....	21
Dua: How long did the bolus dwell?	22
Abnormal swallows.....	23
Inadequate bolus clearance.....	24
Observation of structural movements: Endoscopic view.....	24
Bolus driving, clearing forces.....	25
Valving forces.....	25
Location of residue.....	26
Judging structural movements during swallowing and residue.....	27
Penetration/aspiration.....	27
Judging sensation: Multiple assessments of sensory status.....	28

Topic 6. Use of FEES to Guide Therapy/Management of Dysphagia

Endoscopy.....	29
Swallow therapy.....	30
Examples of the use of endoscopy in therapy.....	31
Controlled swallow.....	32
“Food sticks in my throat.”.....	33

FEES: Fiberoptic Endoscopic Evaluation of Swallowing

Topic 7. What is the Efficacy of FEES?

Endoscopy vs. fluoroscopy.....	35
Summary.....	36

Appendixes

A. Endoscopic anatomy of the larynx (Joseph Murray, VAMC Ann Arbor).

B. FEES Protocol [from Langmore, S.E. (2001). *Endoscopic evaluation and treatment of swallowing disorders*. New York: Thieme.].

C. FEES Ice Chip Protocol [*ibid.*].

D. ASHA Documents

American Speech-Language-Hearing Association. (2004). Knowledge and skills needed by speech-language pathologists performing videofluoroscopic swallowing studies. *ASHA Supplement*, 24, 178–183.

American Speech-Language-Hearing Association. (2005). The role of the speech-language pathologist in the performance and interpretation of endoscopic evaluation of swallowing: Position statement. *ASHA Supplement*, 25, in press.

American Speech-Language-Hearing Association. (2004). Role of the speech-language pathologist in the performance and interpretation of endoscopic evaluation of swallowing: Guidelines. *ASHA Supplement*.

American Speech-Language-Hearing Association. (2005). The role of the speech-language pathologist in the performance and interpretation of endoscopic evaluation of swallowing: Technical report. *ASHA Supplement*, 25, in press.
